PUBLIC UTILITIES  
COMMISSION  
REGULAR AGENDA**

p: 218-885-1210

*City of*  
**NASHWAUK**  
**FROM TIMBER TO TACONITE**

301 Central Avenue, Nashwauk, Minnesota 55769

**NPUC COMMISSION**

**TUESDAY, MARCH 17, 2026**

**E. Milton Latvala**

*Chair*

**Mike Anderson**

*Commissioner*

**Mark Marinaro**

*Commissioner*

**Brian Ekholm**

*Commissioner*

**Tom Martire**

*Commissioner*

**1. CALL TO ORDER**

**2. ADOPTION OF AGENDA**

**3. APPROVAL OF MINUTES**

- a. Minutes of the February 17, 2026, Nashwauk Public Utilities Commission meeting.

**4. APPROVAL OF CLAIMS**

**5. OLD BUSINESS**

- a. East Itasca Joint Sewer Project Update.
  - i. Discussion regarding excess capacity.
- b. 3<sup>rd</sup> Street Utility Project Update (2026 Project)
  - i. Submission to the 2027 PPL
- c. Tracking water tower restoration (2028 planning with \$600,000 estimate project costs). Water Tower inspection report received from KLM Engineering.
- d. Updates and recommendations from Joe Peterson.

**6. NEW BUSINESS**

- a. Approve Kristina Tunink to attend the Distributed Energy Resources technical specification training hosted by MMUA in Grand Rapids, MN on April 27, 2026; cost of \$950.00.

**7. PUBLIC COMMENT.** Members of the public are welcome to address the Commission. Please provide your name, a brief description of the subject matter, and keep comments to 5 minutes.

**8. ADJOURN**

**City of Nashwauk  
Nashwauk Public Utilities Commission  
February 17, 2026**

Chairman Latvala called the meeting to order at 1:00 p.m. in the Council Chambers of Nashwauk City Hall.

**Members present:** Chairman Milt Latvala, Commissioner Tom Martire, Commissioner Mike Anderson, Commissioner Brian Ekholm and Commissioner Mark Marinaro were present via Microsoft Teams.

**Members absent:** None.

**Also present:** John Jamnick, April Kurttock, Jason Martire.

**Adoption of Agenda**

\*Motion by Commissioner Anderson, seconded by Commissioner Martire to adopt the agenda of the February 17, 2026, Nashwauk Public Utilities Commission meeting.

Ayes: all present. Motion carried.

**Approval of Minutes**

\*Motion by Chairman Latvala, seconded by Commissioner Martire to approve the minutes of the January 20, 2026, Nashwauk Public Utilities Commission meeting.

Ayes: all present. Motion carried.

**Approval of Claims**

\*Motion by Commissioner Anderson, seconded by Commissioner Martire to approve the claims and file the claims register as official record.

Ayes: all present. Motion carried.

**Old Business**

**East Itasca Joint Sewer Project Update**

At the East Itasca Joint Sewer Board meeting, the Board learned that the Lone Pine project is funded. The next step will be going out for bids. Lone Pine will not be putting the project to a vote. Bids need to be submitted prior to June 1 to PFA. Commissioner Anderson asked about where the Lone Pine force main will connect to the Nashwauk system. John Jamnick said it would connect to the 30" force main near the bridge by Sierra Road. Commissioner Anderson asked about changes to the Nashwauk system when Lone Pine connects. John Jamnick said some additional aerators will need to be added.

**3<sup>rd</sup> Street Utility Project Update**

Nashwauk received confirmation from Congressman Stauber's office that \$1,061,000 was granted toward the 3<sup>rd</sup> Street project for the water infrastructure. April Kurttock said she had a discussion with financial consultant Mike Bubany regarding the award. It was being administered by the EPA and the EPA said they would reach out within a few weeks, but no contact has been received. Bubany said we needed to determine how the EPA would be allowing Nashwauk access to the funds because if it was strictly on a reimbursement basis, temporary financing may need to be put in place. The overall project was \$2.4 million, so the Commission discussed funding of the remaining \$1.4 million, as the PFA did not include the 3<sup>rd</sup> Street project on their 2026 IUP. The application for the 2027 PPL was within the packet and the Commission discussed applying but also asked if temporary financing could be obtained and then use PFA funding later. Kurttock said funding options will be on the next agenda, assuming the EPA has reached out and provided a clear answer.

**Joe Peterson Updates**

\*Motion by Commissioner Martire, seconded by Commissioner Ekholm to approve the budgetary proposal from Amptek regarding fuses for Mesabi Metallica substations in the amount of \$73,240.00.

Ayes: all present. Motion carried.

**New Business****Franchise Fee Ordinance**

Notice was provided to the Commission that the City adopted an Ordinance regarding establishing a large industrial service customer and a 2% franchise fee for such customers.

**High School Water Line Break**

Jason Martire provided an update regarding the water line break within the old high school. The school failed to heat the building and their water suppression system valve cracked in half causing approximately 300,000 gallons to be lost. Jason said that the contractors still needed water to the building so that they could continue with asbestos abatement, so a residential water service with a garden house remains for their use. Commissioner Martire expressed frustration with the school because it wasn't an accident; the school failed to properly heat the building and was asked multiple times before winter and during winter what they were going to do with the water service, as Jason Martire was concerned about waterline breaks. April Kurtock said that she had contacted JK Mechanical, as they were the contractor that was called out for the incident, and asked if they intended on invoicing the City or the school for the call out. JK Mechanical confirmed they would be billing the school directly. April Kurtock said that there was nothing currently in place that would allow her to bill the school for this issue. She said that City Councilor Dave Bruns did suggest adopting an ordinance that would address issues with abandoned or vacated buildings and how utilities needed to be addressed. The Commission discussed this option and asked that April Kurtock work with the attorney to draft an ordinance for the Commission's consideration and then they would ask the Council to adopt it.

**Adjourn**

\*Motion by Chairman Latvala, seconded by Commissioner Martire to adjourn at 1:51 p.m.

Ayes: all present. Motion carried.

**Subject:** Lone Pine  
**Attachments:** Doc-03052026101347.pdf

Hi April....this came up at the Lone Pine board meeting last night: the county is considering including Greenway and Goodland in the Swan Lake sewer area for on-site system compliance. I think Lone Pine saw it for the first time....this gets back to our capacity allocations we have been discussing...

**RESOLUTION NO. [ ]**

**A RESOLUTION EXEMPTING PROPERTIES WITH THE SWAN LAKE SEWER DISTRICT FROM SUBSURFACE SEWAGE TREATMENT REQUIREMENTS FOR A PERIOD OF FIVE (5) YEARS**

WHEREAS, the County Board of Itasca, Minnesota, is authorized to regulate subsurface sewage treatment systems (SSTS) pursuant to Minnesota Rules 7080-7083; and

WHEREAS, the County has adopted a Subsurface Sewage Treatment System Ordinance, to be administered by Environmental Services, which establishes the standards for upgrade, repair, replacement, or abandonment of SSTS in unsewered incorporated, and unincorporated, areas of Itasca County; and

WHEREAS, in Section 5.2 of the SSTS Ordinance, the County requires that an existing SSTS shall require a compliance inspection and shall be brought into compliance with the ordinance when any one of the following conditions occurs:

1. The Zoning Official deems appropriate, such as upon receipt of a complaint or other information of SSTS failure;
2. Any time the use of a building or the property being served by an existing SSTS is expanded and thereby impacts the performance of the SSTS;
3. Property is transferred as set forth in Section 2.5; or
4. A zoning permit or variance is requested for a bedroom addition or dwelling replacement; and

WHEREAS, in Section 5.5.4 of the SSTS Ordinance, the County requires that failing SSTS be upgraded or replaced within twenty-four months after the owner receives a Notice of Noncompliance; and

WHEREAS, portions of Lone Pine Township, Greenway Township, Goodland Township, Unorganized Township 55-23 surrounding Swan Lake and identified on the attached map, hereby identified as the Swan Lake Sewer District, are engaged in a large-scale infrastructure project to establish a community wastewater collection system which has been delayed while they secured final funding; and

WHEREAS, the County Board recognizes that, under specific circumstances, immediate compliance with SSTS Ordinance requirements may impose an undue hardship on certain property owners, or may not be necessary to protect public health, safety, or the environment; and

WHEREAS, the County Board desires to provide a temporary exemption to eligible property owners while maintaining the long-term objectives of the County's SSTS Ordinance; and

WHEREAS, the County Board finds that a limited exemption period will allow affected property owners sufficient time to plan for future compliance without compromising public interests.

NOW, THEREFORE, BE IT RESOLVED by the County Board of Itasca, Minnesota, as follows:

**1. Exemption Granted.**

Certain property owners who meet the eligibility criteria established by the County are hereby exempted from the requirement to upgrade, repair, or replace existing SSTS.

**2. Eligibility Criteria.**

The exemption shall apply only to properties:

- o Located within the boundaries of the proposed Swan Lake Sewer District;
- o Subject to a compliance inspection as required by Section 5.2 of the Itasca County SSTS Ordinance; and
- o Where the existing SSTS has not been identified as an imminent threat to public health.

**3. Duration of Exemption.**

The exemption granted under this Resolution shall be effective for a period of five (5) years from the date of approval of this Resolution, unless terminated earlier pursuant to Section 4.

**4. Revocation of Exemption.**

The County reserves the right to revoke an exemption if:

- o The existing SSTS has been identified as an imminent threat to public health. Any SSTS posing an imminent threat to public health or safety shall be upgraded, replaced, or repaired within 10 months, in accordance with Section 5.5 of the Itasca County SSTS Ordinance.

**5. Future Compliance.**

Upon expiration of the five-year exemption period, exempted property owners shall comply with all applicable SSTS requirements in effect at that time, unless an extension or additional exemption is granted by the County Board.

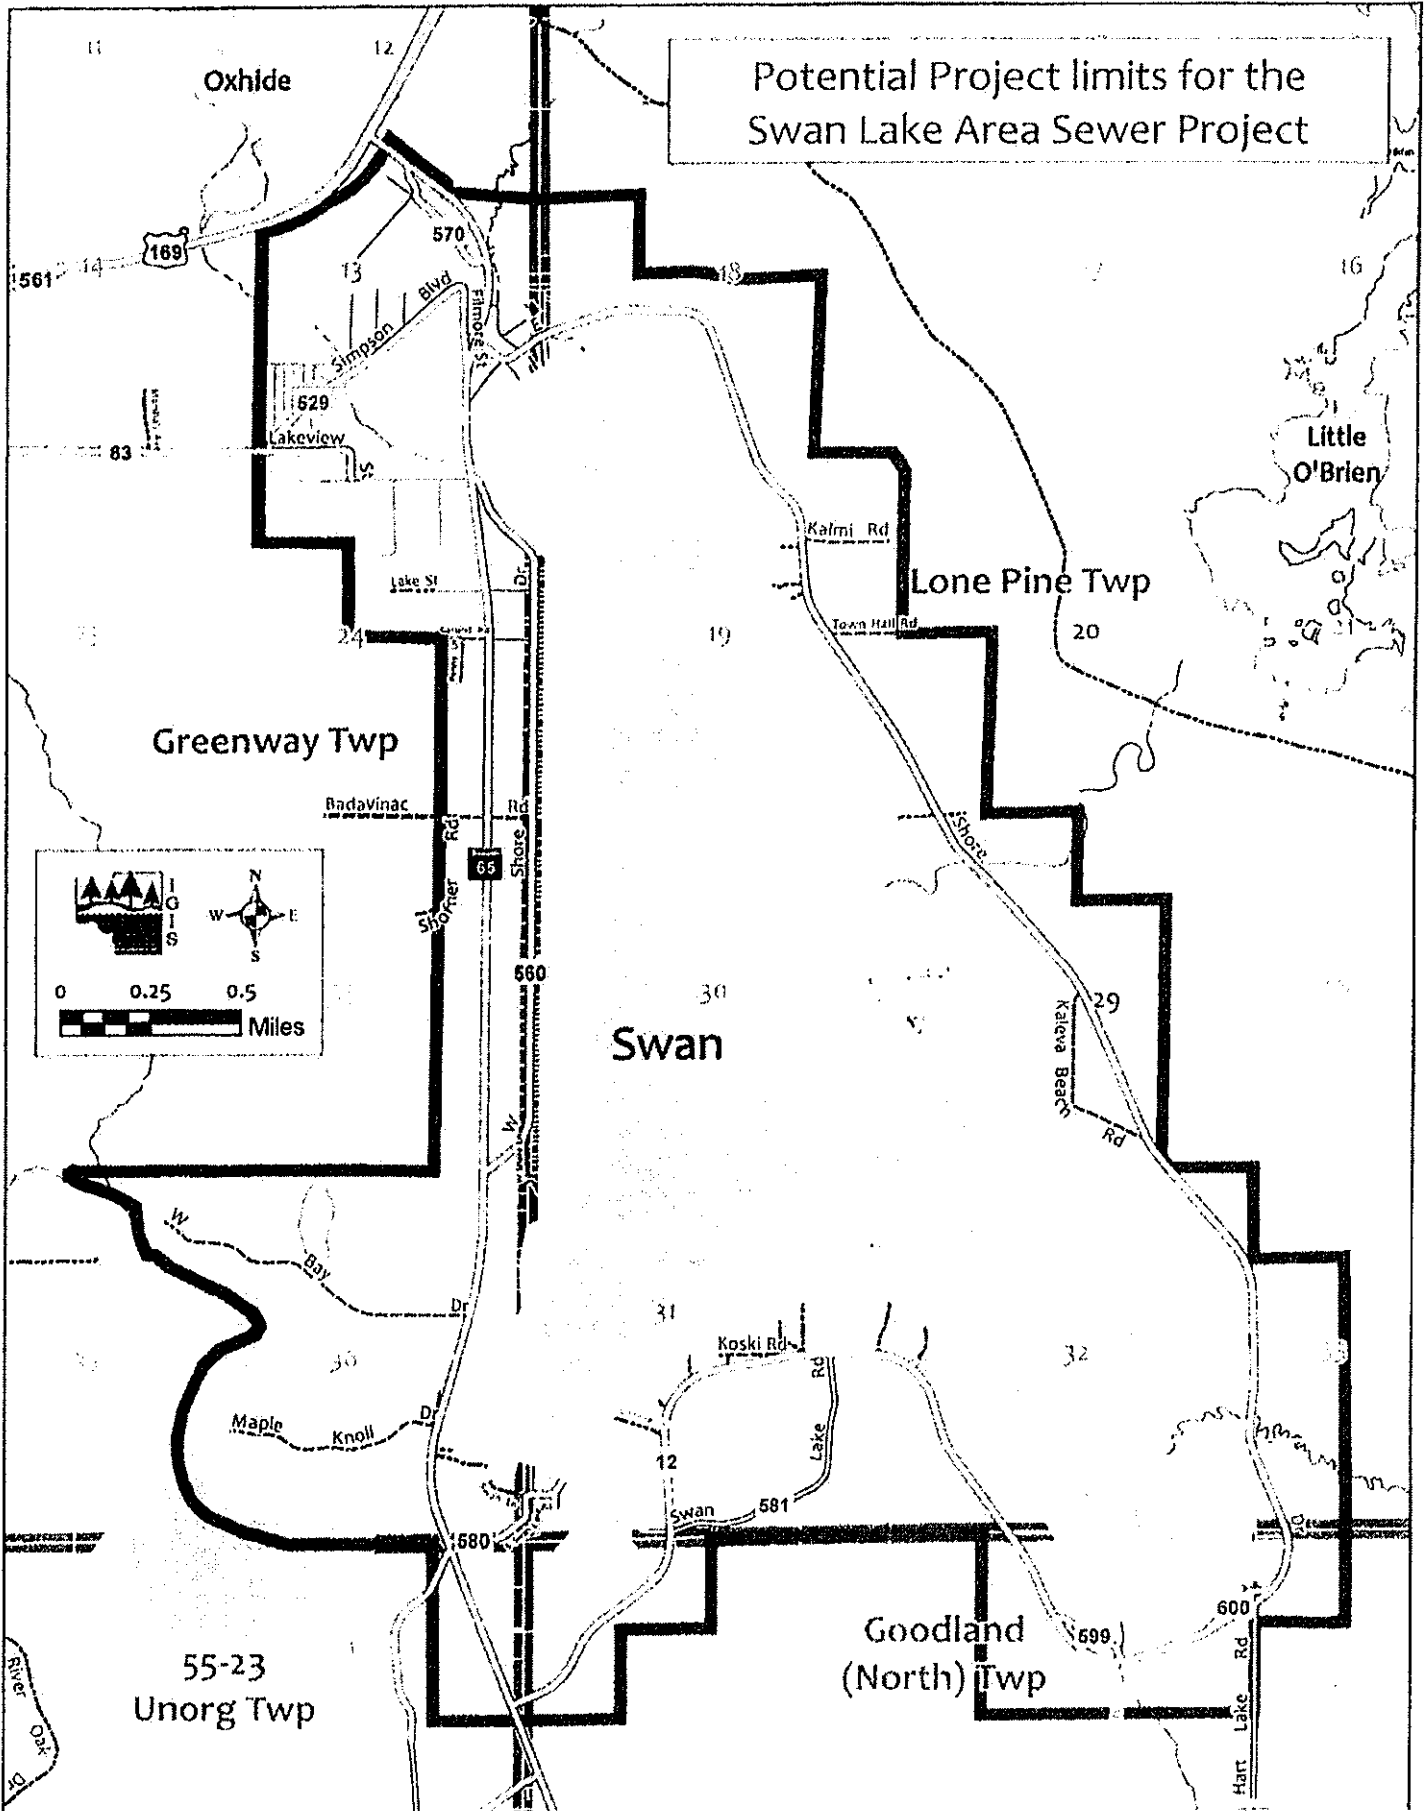

**6. Administration.**

The Environmental Services Department is authorized to administer this Resolution, establish procedures, and take all actions necessary to implement its intent.

**BE IT FURTHER RESOLVED** that this Resolution shall take effect immediately upon adoption.

Adopted this \_\_\_\_ day of \_\_\_\_\_, **2026**.

Potential Project limits for the Swan Lake Area Sewer Project

**Addendum #2**  
**3rd Street Reconstruction**  
**City of Nashwauk- CWRP PPL# 280962**  
**March 4, 2026**

The following is a reconstruction project of an old and deteriorating sanitary sewer line into the City of Nashwauk.

The project area includes Third Street from Hawkins Avenue to Fern Avenue. This section consists of old VCP sanitary sewer mains and manholes that will be replaced/fixed, old water main replacement and reconstruction of the existing storm sewer and street.

The following project components are recommended:

- Replace the old VCP sanitary sewer mains, replace old sanitary manholes and sewer services with 8" PVC.
- Replace the old cast iron watermain with a new 6" DIP water main from Hawkins Avenue to Fern Avenue, replace old hydrants, gate valves and all water services with copper tubing and new curb stops.
- Restoration includes full restoration of sidewalk, curb, bituminous surface, and other project related restoration (32' curb and gutter section). Replace storm sewer, catch basins, and storm manholes within the project limits.

The total estimated project cost is \$2,387,000. The cost of the wastewater is \$848,000.

The project recently received a CDS allocation from the federal government and the project is scheduled for construction in 2027.

I hereby certify that this plan, specification or report was prepared by me or under my direct supervision and that I am a duly Licensed Professional Engineer under the laws of the State of Minnesota.

# CWRF facilities plan submittal checklist

## Clean Water Revolving Fund (CWRF) Program

Submissions Required for a Complete Facilities Plan

Minn. R. 7077.0272

**Instructions:** The Facilities Plan may be submitted via email at [ppj\\_submittals.pca@state.mn.us](mailto:ppj_submittals.pca@state.mn.us) (and one hard copy submitted to the assigned Minnesota Pollution Control Agency [MPCA] Review Engineer).

### Facility information

Project name: Nashwauk- 3<sup>rd</sup> Street WWC replacement  
 Proposed dates for construction: 2027  
 City's authorized representative: April Kurtock  
 Title: City Administrator Telephone: 218-885-1210  
 Mailing address: 301 Central Avenue  
 City: Nashwauk State: MN Zip code: 55769  
 Technical agent or consulting engineer: John, P. Jamnick, P.E.  
 Name of firm/organization: JPJ Engineering, Inc. Telephone: 218-929-0750

### Check yes or no for the following questions

Is the Facilities Plan signed by an engineer registered in the State of Minnesota?  Yes  No  
 Has the municipality in which the facility will be located held at least one public hearing to discuss the proposed project?  
 Yes  No If yes, what was the date the hearing was held: \_\_\_\_\_

### Check the boxes below if you have included the following items

If all of the following items are not included with the Facilities Plan, the Facilities Plan is incomplete and may be returned or filed until a complete submittal is received. Facilities Plan review will not begin until a complete submittal is received. Please see Minn. R. 7077.0272 for more information about the content of facilities plan.

The following forms can be found on the MPCA website at <https://www.pca.state.mn.us/water/wastewater-financial-assistance>.

- A completed *CWRF cost and effectiveness certification checklist* provided by the MPCA.
- A completed *CWRF B3 2030 exemption form* provided by the MPCA.
- A completed *CWRF cost and effectiveness certification form* provided by the MPCA.
- A summary of the public hearing documenting that the following items were discussed:
  - The various treatment alternatives considered
  - The location of the project site
  - The reasons for choosing the selected treatment method
  - The estimated sewer service charges
- A summary of the comments received at the public hearing and the action taken to address those comments.
- A complete list of addresses used for public notice purposes on a form provided by the MPCA.
- A copy of the resolution of the municipality's governing body adopting the facilities plan.
- A list of ordinances or intermunicipal agreements required for the implementation and administration of the project.
- A signed treatment agreement with each significant industrial user.
- For surface water dischargers only, a copy of the Preliminary Effluent Limits review letter provided by the MPCA.
  - Contact the MPCA to determine if a formal request for Preliminary Effluent Limits needs to be made for the project.
  - The alternatives analysis should address antidegradation requirements if the project is proposing an increase in flow or loading.
- A completed *Environmental Information Worksheet* provided by the MPCA.
- For individual sewage treatment systems that serve more than one structure, an assurance from the municipality stating that all property owners who will be served by the proposed system agree to be part of the system, to participate in the construction project, and to finance future operation, maintenance, and replacement of the system.
- Copies of all notifications, certifications, and comments received.

## April Kurtock

---

**From:** MMUA Events <events@mmua.org>  
**Sent:** Tuesday, March 3, 2026 4:16 PM  
**To:** April Kurtock  
**Subject:** Registration open: DER Technical Specification Manual Training

**Help your utility comply with recently revised requirements for Distributed Energy Resources (DER): Get an updated Technical Specifications Manual and training on how to adapt it**

**Two sessions are available:**

Monday, April 20  
9:30 am–2:30 pm (lunch provided with one hour break)  
St. Peter Community Center  
St. Peter, MN

Monday, April 27  
9:30 am–2:30 pm (lunch provided with one hour break)  
Grand Rapids Public Utilities  
Grand Rapids, MN

All electric utilities must adopt a utility-specific DER Technical Specifications Manual (TSM) to meet interconnection regulations created by the Minnesota Public Utilities Commission (MPUC) in 2024 and expanded in 2026. MMUA has created resources to put you in current compliance.

By attending this training, you will receive authorization to use TSM and how to adapt it to your utility.

During the training session, STAR Energy's Kristi Robinson will explain the manual, how it fits with the existing Minnesota Municipal Interconnection Process (M-MIP), and provide education on recently updated statewide technical requirements. MMUA staff will be on hand to help utilities through implementation and note any issues that may require follow-up.

**Why is this required?**

The newly-expanded interconnection rules approved by the MPUC in 2024 mandate that every electric utility adopt a TSM for interconnection. If you do not have a manual that aligns with the 2024 guidelines, your utility is out of compliance with the MPUC's rules.

**Who should attend?**

This event focuses on utility policy and state regulatory compliance and is intended for management and/or upper-level operations personnel of ALL Minnesota municipal electric utilities and appropriate municipal power agency personnel.

**Fees**

Bundled fees for the first individual from a utility include one TSM license plus the training program. Additional attendees from the same utility will pay only for the training.

If your utility already has a compliant manual, you may attend the training only for a reduced fee.

**East Itasca Joint Sewer Board  
Regular Board Meeting  
February 17, 2026**

Jon Korpi called the meeting to order at 9:00 a.m. in the Conference Room of Nashwauk City Hall.

**Members present:** Michael LaBine, Jon Korpi, Tom Martire.

**Members absent:** Greg Heyblom.

**Also present:** John Jamnick, April Kurtock, Gary Lamppa, Jason Martire, Billie Fowler.

**Approval of Minutes**

Minutes from the previous meeting were not within the packet, so they were not approved.

**Treasurer's Report**

Jon Korpi reported that the ending balance of the checking account for the month of January 2026 was \$2,878.09. Lone Pine Township has made a contribution of \$10,000 toward the Board account. One invoice was received in the amount of \$3,139.68 from Community Resources Development.

\*Motion by Michael LaBine, seconded by Tom Martire to approve the Treasurer's report and the claim to Community Resource Development in the amount of \$3,139.68.

Ayes: all present. Motion carried.

**Community Resource Development Update**

Gary Lamppa said the PFA funds for Lone Pine Township have been confirmed and approved. Fryberger said the Township can pass a bond issue without voter approval. Lamppa said John Jamnick should be established as the contact person for the project so that everyone can refer questions to one person. Lone Pine Township's next steps will be going out to bids. Jon Korpi said that the Lone Pine project was funded 100% and their view of it is that they have resolved their concern regarding funding. Lamppa said the Lone Pine project was the last project that PFA funded. Bids need to be submitted to PFA by June 1, 2026.

Jamnick said the Board needs to get together more often to figure out the next round of negotiations related to the Joint Sewer Agreement. Lone Pine Township needs an operator for their system. They expressed a preference to hire a contractor versus hiring an employee. Korpi said the Township Board started discussing operations and billing and noted they're anxious to move forward. Legally they do not have to go out for a vote for the project to move forward because it will be funded by user fees, not a levy.

Korpi said it will take many years to get everyone connected. Every single property will need to be addressed on a custom basis because every property has unique conditions. The Nashwauk facility could potentially accept flow from Lone Pine Township as early as fall of 2026, but that aggressive timeline wasn't expected to be reality. Jamnick said they've met with the County, MNDOT, Railroad Authority, and DNR regarding the various permits needed from each entity. That permitting process is moving at the pace that it should be said Jamnick. Part one of the project will be the forced main construction. It will all be bid at the same time, but they'll have specific timelines in place for the various parts.

The Lone Pine Township project also includes installation of additional aerators at the Nashwauk facility. It'll require some conversation with PFA because Lone Pine will be bidding that portion of work, too, at the Nashwauk facility, but the Nashwauk facility is owned by Nashwauk.

**Nashwauk Wastewater Operator Update**

Jason Martire said the facility is running smoothly and there are currently no issues.

Michael LaBine asked about the billing Keewatin received for the lift station. Jason said Nashwauk has 3 lift stations and a muffin monster. Keewatin was billed for the one lift station that services them, too.

LaBine said that Keewatin changed out their gauges in their lift station. They were dirty and now after replacement, the pressure from Keewatin is fine.

LaBine asked if Jason would take the Keewatin supervisor around the Nashwauk plant. Jason agreed.

**Next Meeting**

The next meeting will be on March 17, 2026, at 9:00 a.m.

**Adjourn**

\*Motion by Michael LaBine, seconded by Tom Martire to adjourn at 9:25 a.m.

Ayes: all present. Motion carried.
